

My Pledge to San Antonio

*“As a candidate for Mayor of San Antonio, I pledge to uphold the values that make our city strong: **faith, family, freedom, and opportunity**. My commitment is to foster a **safer, more prosperous** community where every resident—no matter their background—has the chance to succeed.*

*I believe in the **dignity of life, the strength of families, and the power of personal responsibility**. I will support parents in making the best decisions for their children’s well-being while championing public schools in their efforts to prepare students for the future. **Respect for religious freedom and constitutional rights** will remain central to my leadership, ensuring that San Antonio remains a city where **all** residents can live, work, and worship in **peace**.*

*A **strong economy** is the foundation of a thriving community. I will work to cut bureaucratic red tape, attract good jobs, support small business owners, and invest in workforce development so that all families can achieve financial independence. By **keeping taxes low, reducing our debt, eliminating wasteful spending, and prioritizing smart investment**, we will ensure that every tax dollar is spent efficiently while delivering the highest quality services.*

*Public safety is a **non-negotiable priority**. I will **stand firmly with law enforcement** to reduce crime, protect neighborhoods, and make San Antonio a **city of law and order, fairness, and justice**. I will also work to ensure that our first responders have the support and resources needed to protect our families and businesses.*

*San Antonio is a city rich in **history, culture, and opportunity**. We must honor our **heritage** while embracing common sense policies that enhance quality of life. This means **investing in our utilities, fixing our roads, improving basic services, and fostering strong relationships with state and federal leaders** to strengthen our city’s economy.*

***Together**, we can preserve what makes San Antonio great while **securing a stronger future**. I will always put San Antonians **first**, especially our seniors and disabled residents, ensuring that our city remains a compassionate place where hard work is rewarded, families can thrive, and freedom is protected. **Change is Coming!**”*
